

From the desk of Mrs. Remark

September 26th- September 30th

I want to congratulate your students on a job well done on both their science AND math tests! They worked so hard, and I am really proud of them! Thank you for your work you did with them at home to help them study for these tests!

Reading logs will be due on Tuesday. Please remind your child to bring his or her reading log to school on Tuesday! We will not have school on Monday due to teacher workshops.

As we move into the wet and colder months at school, we ask that you would please send an extra change of clothes with your children for them to keep in their lockers. If they fall in wet snow, a puddle from the rain, or have any other sort of accident, it is easiest if they just have a change of clothes at school that they can put on! Please send these in a plastic bag, and they will be stored in the children's lockers.

I am looking for helping hands to come into the classroom to either work with students, or help with copying, cutting, etc. If you are available to help in our classroom, please let me know.

Mrs. Remark

Math: Categorize data into like categories

Reading: Read with grit to become a better reader

Writing: Add the 5 senses and dialogue into my writing

Social Studies: Define key mapping vocabulary

Next Week

Monday: NO SCHOOL!

6 Tuesday: PE

1 Wednesday: Music

2 Thursday: PE

3 Friday: Superblock, Art

This week

See the classroom website for photos and more information:
www.mrsremark.weebly.com

At home continuation...

Ask your student:

What does the word **aerial** mean, and how does it relate to mapping?
It means from the air, and that is how many maps are created, using aerial photographs

What does it mean to “read with grit” and how can you read with grit?
It means to push yourself and challenge yourself to be a better reader. You can stick to one book, read at school and at home, use your reading time responsibly, challenge yourself to read just right books, think back often about your reading goals.

Congratulations to last week's VIP

Maycee Moe

Other Information

Next Week's Star Student:

Blake H.
